

DEFENDER™

TYPE III URBAN-INTERFACE PUMPER

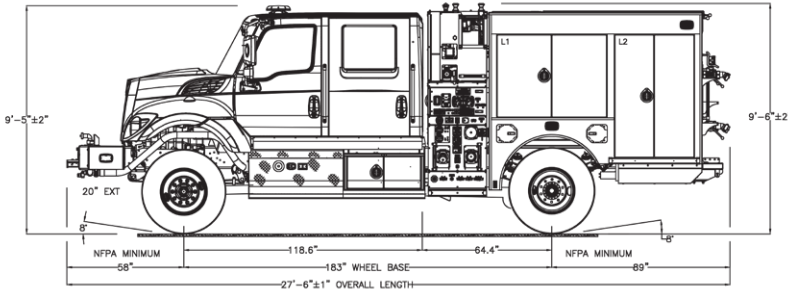

**DEFEND
THE
LINE.**

The Defender Type III Urban-Interface Pumper is built tough for the most challenging situations. It stands strong at the edge of communities threatened by wildfires, helping divert fire away from people and property. The ability to pump and roll at the same time delivers much-needed versatility in a variety of conditions. Engineered for strength and easy repairs, the Defender is your line of defense in wildland environments.
